Petodnevni sistem čitanja Biblije omogućuje vam da pročitate cijelu Bibliju u jednoj godini dok čitate samo pet puta u tjednu. Čitanja Starog zavjeta postavljena su što je više moguće kronološki. Jedina iznimka je Job, vjerojatno najstarija knjiga u Bibliji, ali smještena na kraju rasporeda, jer ju je teško smjestiti negdje drugdje. Uvijek čitajte redosljedom kojim se pojavljuje na rasporedu. Na primjer, ako se čitanje iz Ljetopisa pojavljuje prije Kraljeva, prvo čitajte čitanje iz Ljetopisa.

Neka vam Gospod pomogne u ovom pothvatu i da vam novo razumijevanje svoje riječi!
